## Anesthesia Progress Note

The current lack of monitoring tools during PNBs and objective documentation of PNBs places regional anesthesia practitioners in a uniquely vulnerable position in cases of adverse neurologic outcome. Although

# File Type PDF

## Documentation Of Regional

### Anesthesia Progress Note

this may be less of a problem in institutions with tradition of using regional anesthesia, it can present a significant obstacle in practices wishing to introduce PNB procedures.

*Anesthesia Procedures ...*

Documentation of informed consent is an important aspect of regional anesthesia practice.

Practice patterns vary widely on this issue, and

# File Type PDF

## Documentation Of Regional

specific written consent for nerve block procedures is often not obtained. However, the written documentation of this process can be important for a number of reasons:
