Book 9 in the 299 Days Series

For many people at Pierce Point and the rest of Washington State, the upcoming New Year is a time for hope, and belief that life is going to improve and the Collapse will end. For Grant Matson and the 17th Irregulars, the New Year means only one thing – war. The time has come, and they have received their orders from HQ. Grant must come clean with Lisa and tell her the truth about his work as he plans to abandon his family once again. While the Loyalists drunkenly and selfishly celebrate New Year ' s Eve, the Patriots mount a surprise attack on Frederickson, making way for the 17th Irregulars to move toward Olympia. As the battle moves on, the men quickly realize the importance of everything they have been training for when they find themselves ambushed. Doing everything he can to suppress his own fear and lead the 17th Irregulars, Grant motivates them to persevere as they fight for liberty and restoring the country to the greatness it once was.

In some ways, post-Collapse life at Pierce Point resembles the every day normalcy that Grant and others still hoped would return. The community is organized and humming along smoothly, the young guys on the Team are partnering off with local "Team Chicks," and Grant's daughter has found a boyfriend. For most, the new reality has been accepted and a calm, self-sustaining groove is setting in. For others, though, life is far from normal. Special Forces Ted returns with an offer that cannot be refused. In the blink of an eye, Grant Matson has another title he can add to father-of-the-year and prepper-in-chief: Lieutenant Grant Matson, Commander of the 17th Irregulars. Grant and the Team are whisked away to Marion Farm, where they will train civilians and be trained to become a special squad in a Special Forces guerrilla group. The slower, simple life at Pierce Point is about to disappear to make way for a community that is well-trained and battle-ready, posed to fight the Loyalist opposition. This cannot happen fast enough, though. Gangs are growing steadily and the government is becoming a bigger threat to freedom and the nation. Violence is turning into an everyday occurrence outside of Pierce Point and it is only a matter of time before the peaceful community will need to protect itself from external dangers. Grant feels the weight on his shoulders as he now needs to protect not just his family, but the entire community, and possibly, all of Washington State.

Grant Matson reunites with his family after his wife, children, and in-laws accept that the only way to survive the Collapse is to flee the comfort of their suburban lives and join him at his isolated cabin in the woods. With riots becoming more violent, power outages more widespread, and the military crumbling, Grant and others throughout Washington state realize they must organize if they want to endure.

Grant Matson has established himself as the leader of Pierce Point, and he begins teaming up with others who will help the community become a patriot stronghold, ready to stand up against government Loyalists, the Undecideds and the Oblivious. Using the United States constitution as their guide, they develop a sense of order and begin planning for a future that shows no sign of improving.

Glen Tate has led an amazing life - and one that took a surprising turn. He grew up poor in the rural logging town of Forks, Washington. He worked hard to become a successful professional with a job in the political arena. Thinking he'd finally made it and everything was great, he was stunned to see how corrupt government is. From his observations at his job, he realized that America is collapsing and bad things are coming. Very soon. He began to prepare for him and his family to make it through the civil unrest of the coming collapse. That meant he had to return to his rural roots - quite a shock to his family and friends. Even more amazing was that he wrote down what he foresees happening during the collapse and it became a ten-book novel series published by Prepper Press.

Grant Matson is on the run from a murder rap and from the approaching collapse of society.

When the Patriots finally launch their strike against the Loyalists, Grant Matson ' s leadership, bravery, and training are put to the ultimate test. The 17th Irregulars are teamed up with regular military units and they must put their differences aside in order to successfully overthrow the Limas. While the battle rages on, the Loyalists outside of Olympia start to pay the price for their allegiances to the wrong side of the Collapse, while well-intentioned others welcome the beginning of New Washington that recognizes fairness and hard work. The battle winds down and a new day begins as the Team recognizes that victory does not come without loss. Grant, now a celebrated war hero, is not without his own personal hardships, and fears facing a new life without his family.

In this final book of the 299 Days series, The 43 Colonels celebrates the many "ordinary" men and women who did extraordinary things during and after the Collapse. Set in the chambers of the New Washington Legislature during a joint session of the House and Senate, Governor Ben Trenton honors Colonel Grant Matson and 42 other individuals who helped start the Restoration. From a personal trainer who became a spy disguised as a water boy, to a homeschooling mom who protected children's minds from Loyalist propaganda, to a young computer hacker who used his skills to get classified information to Oath Keepers, and a Special Forces operative who conducted some amazing missions, the stories of these modern-day Patriots, both heart-wrenching and inspirational, demonstrate how anyone can help in a revolution.
