The Helix was created to revolutionize the way we communicate. But even the purest of intentions can spawn terrible evil. This wasn't what Lithia had in mind when she decided to run away from home. Her ship was not meant to carry a fugitive wanted in two galaxies, or the stowaways running from a war that wasn't hers. She just wanted to live a quiet, peaceful life alongside her brother. But now she knows too much about The Helix, the secret hidden deep within it, and what it would mean for all humankind if she walked away.

"Time travel, UFOs, mysterious planets, stigmata, rock-throwing poltergeists, huge footprints, bizarre rains of fish and frogs-nearly a century after Charles Fort's Book of the Damned was originally published, the strange phenomenon presented in this book remains largely unexplained by modern science. Through painstaking research and a witty, sarcastic style, Fort captures the imagination while exposing the flaws of popular scientific explanations. Virtually all of his material was compiled and documented from reports published in reputable journals, newspapers and periodicals because he was an avid collector. Charles Fort was somewhat of a recluse who spent most of his spare time researching these strange events and collected these reports from publications sent to him from around the globe. This was the first of a series of books he created on unusual and unexplained events and to this day it remains the most popular. If you agree that truth is often stranger than fiction, then this book is for you"--Taken from Good Reads website.
