~~Participatory integrated assessment methods~~

The field of Participatory Integrated Assessment (PIA) is still very young, having evolved from the broader field of Integrated Assessment (IA) in the mid to late 1990s. Like IA, PIA is a problem based field, with a focus on interdisciplinary research. Fundamental to PIA, however, is the assertion that the quality of decisions is improved by the direct involvement of stakeholders in the assessment process—particularly when those decisions pertain to complex, intractable problems.
