The Sai by HVT is a portable wax atomizer that is powered by a box mod. It is only compatible with concentrates, not dry herb. The unit only has 4 parts total and functions just like an ecig RDA. The diameter of the Sai is the ecig industry standard 22m, so it fits snugly on any 510 threaded box mod.

The Saionara, or Sai for short, is a modular oil vaporizer made for dabs. It's the closest you can get to an actual dab rig that fits in the palm of your hand. It's fully customizable, so you can choose from more than a dozen different coils for your favorite hit, and personalize your Sai with different colors and battery options.

The Saionara atomizer or sometimes referred to as the Sai atomizer is designed to turn your box mod into a powerful wax device complete with adjustable airflow. Just to clarify this is an add-on for a box-mod rather than an entire device in itself and that begs the question; can it compete with a proper rig?

The Saionara atomizer is built to last. The housing is made of stainless steel or titanium, with no glues or solder. The wire coils are strong and durable -- when most other coils are breaking, Sai coils keep going. If the coils start to taste foul, you can clean them to fresh-as-new instead of throwing them out!

The Sai is our best-selling 22mm cannabis concentrate atomizer, with adjustable bottom airflow. It is available in four colors: Stainless Steel, Gold, Black, or Titanium. All color options come with a Kanthal Black Ceramic Coil pre-installed. Because of higher production costs, the Black and Gold are \$5 more and the Titanium is \$10 more.
