Polystyrene packaging.

Polystyrene is a type of plastic which is not commonly recycled.

Online Library

Waste

Most people readily recognise expanded polystyrene which is sometimes used for take-away food containers and to package white goods like microwaves.

Expanded polystyrene should be placed in the waste bin.

Polystyrene is also sometimes used for other food packaging

Now

Expanded

Polystyrene (EPS) is great for protecting the products you need to run your business, but it can take up valuable storage and waste disposal space.

Online Library

Waste

It takes up valuable landfill space, too. With Waste Management's EPS recycling solutions, separating out your polystyrene will save on disposal costs and free up space for your business – and NZ's landfills.

~~Polystyrene Recycling~~
